

HeartFlow® Finder – Overview

About the HeartFlow Finder

The HeartFlow Finder helps patients locate a nearby institution that both offers the HeartFlow Analysis and is supported by a team of experienced physicians familiar with the technology. The finder helps increase awareness of the availability of the HeartFlow Analysis and facilitates referrals.

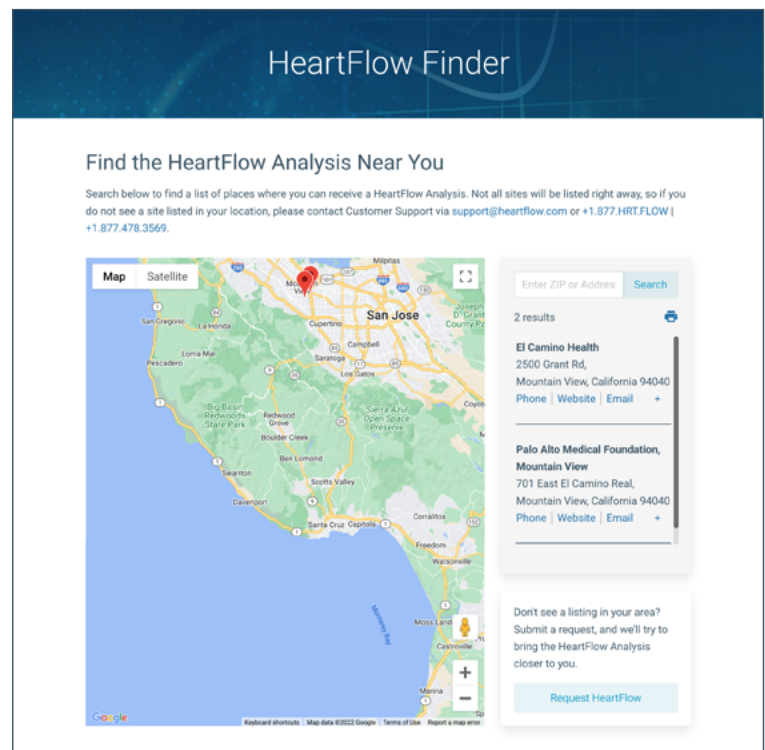

How it Works

From the HeartFlow website, those interested in receiving a HeartFlow Analysis can search by zip code, institution or other search field. Nearby locations will appear on a map with related location information listed. If a search does not provide a nearby institution, patients can submit a request to HeartFlow.

Why Join?

We want to foster a community of HeartFlow customers and create a better patient experience. By connecting people to the places where they can receive a HeartFlow Analysis, we're helping to achieve one of our number one goals: transforming the diagnosis and management of coronary artery disease. Being listed will help potential patients get connected to you to receive the proper diagnosis and treatment. Being listed can also help boost your website traffic and referrals for other services as well.

If you have suggestions for how to improve this finder experience, please email:
info@heartflow.com.

HeartFlow Finder – Frequently Asked Questions

Where do I find the HeartFlow finder?

Find the HeartFlow Finder at
<https://www.heartflow.com/finder>

Are there minimum requirements to be listed in the finder?

No. If your site is live and onboarding complete, then you can be listed.

How do we get our institution listed?

Please complete the consent form(s) provided by your HeartFlow representative.

Does it cost money for us to sign up for the HeartFlow Finder?

No, this is a free service for HeartFlow customers.

What if I have multiple locations, will I need to complete a form for all locations?

Yes, if you have multiple locations, you need to provide contact information for all approved locations to be listed in the finder.

Are there any benefits to our institution for being listed?

By being listed in the HeartFlow Finder, more patients can get connected to your institution. It helps create awareness that your institution is an experienced HeartFlow customer and allows

patients to quickly set up appointments with your physicians. Additionally, you may experience an increase in referral traffic to your website and an increase in requests for other services.

Do I need to change our workflows or how we schedule appointments?

No. You will provide the preferred contact information where patients can set up an appointment. This can be the same workflow that you currently use to schedule appointments. We do recommend that you train your front desk or call center staff about the HeartFlow Analysis so that they are aware of the service and can answer any questions patients might have. We have a basic call script that can be printed to help with this training.

How do we change our information or request to be removed from the finder?

You can change information or ask to be removed at any time by emailing support@heartflow.com.

Who do I contact if I have additional questions or would like to be listed?

Please work with your local HeartFlow representative if you have additional questions or would like to be listed.
